

Local stop smoking service and support: commissioning, delivery and monitoring guidance

Feedback Form

This guidance for the Local stop smoking services has been produced via a rapid development process to make sure that it was available as soon as possible. The guidance will remain dynamic and responsive to new policy, research, and clinical guidance developments.

If you have any corrections, suggestions or comments about the guidance then we would be very grateful if you could use this form.

General comments:	
Page number and / or section	Corrections, suggestions, or comments

We are also keen to include case studies in future versions of the guidance, especially those relating to priority populations.
